**WARNINGS TO DRIVER**

**This vehicle has been modified to enhance off road performance and has unique handling characteristics. Because of the higher center of gravity and higher tires, the vehicle handles and reacts differently than many passenger cars, both on and off road. You must drive it safely. Extreme care should be taken to prevent vehicle rollover or loss of control which can result in serious injury or death. Avoid sudden sharp turns or abrupt maneuvers.**

**IMPORTANT PRODUCT USE INFORMATION**

Generally, braking performance and capabilities are decreased when significantly larger/heavier tires and wheels are used. Take this into consideration while driving.

Do not add, alter or lubricate any factory or aftermarket parts to increase vehicle height over the intended height of the TEXAS 4 WHEEL CONNECTIONS product purchased. Mixing component brands is not recommended.

TEXAS 4 WHEEL CONNECTIONS makes no claims regarding lifting devices and excludes any and all implied claims. TEXAS 4 WHEEL CONNECTIONS will not be responsible for any altered product or any improper installation or use of our products.

We will be happy to answer any questions concerning the design; function and correct use of our products.

**IMPORTANT MAINTENANCE INFORMATION**

It is ultimately the buyers' responsibility to have all bolts nuts checked for stableness after the first 100 miles and then every 1,000 miles. Wheel alignment steering system, suspension and driveline systems must be inspected by qualified professional mechanic at least every 3,000 miles.
